

Flamex PF-2

Fire Retardant Spray For Exterior Wood

DESCRIPTION

Flamex PF-2 is a wood fire retardant penetrant applied to the surface to stop or slow flame spread.

Flamex PF-2 fire retardant spray leaves the natural surface of the wooden materials visible. Flamex PF-2 is an environmentally friendly flame retardant

Flamex PF-2 protects wooden building components outside.

Flamex PF-2 is designed for interior use on wooden materials that are subjected to high humidity and moisture to prevent leaching.

Flamex PF-2 is normally spray applied and is classified according to ASTM Standards

WHERE TO USE Flamex PF-2

Flamex PF-2 can be applied in residential, commercial and industrial construction where you would like to have a natural decorative finish while continuing to use your timber.

Why Use Flamex PF-2?

- Fire Protection with Natural Appeal for wood.
- Flamex PF-2 has been designed to allow fire protection to wood without compromising aesthetic appeal or functionality:
- Does not compromise intricate designs and shapes created by timber.
- Does not corrode nails, screws or other metal fasteners.
- Up to 5 years exterior durability and a interior permanent treatment

REQUIRED DATA

Product	Spread of Flame Approval
Flamex PF-2	ASTM E-84 Class A
Approvals	
Intertek Laboratory & Home Innovation Research Labs	
Transport / Storage	
<ul style="list-style-type: none">- Transport and store free from frost- preferably at a minimum of +5°C to a maximum of +30°C.- shelf-life of unopened pails: 12 month from date of manufacture.- Opened pails must be re-sealed.	
Packaging	
<ul style="list-style-type: none">- 12.5 and 25 kg net weight- Plastic pails- Other sizes on request	
Surface Preparation	
Please refer to the Technical Data Sheet	
Application	
Please refer to the Technical Data Sheet	
Drying Time	
Please refer to the Technical Data Sheet	
Top Coats	
Please refer to the Technical Data Sheet	
Safety and the Environment	
Please refer to the Technical Data Sheet	

TYPICAL APPLICATIONS

Provides Class A fire protection to wood structures and materials while maintaining architectural aesthetics for commercial infra- structure assets including:

- Homes
- Airports
- Stadiums and Leisure Facilities
- Office Buildings
- Retail Complexes
- Cinemas
- Residential low and Highrise Apartments
- Atriums
